

UW-Bench Dataset Access Agreement

Introduction

UW-Bench is proposed to facilitate the study of urban waterlogging detection. It contains various scenarios, such as waterlogging scenes, dry roads, slippery roads, and nighttime roads. The training set is collected and labeled by the LiVE group of Chongqing University and is publicly available. The test set is provided by Huawei.

Terms and conditions to apply

- 1) *Redistribution and Modification*: Users are prohibited from reproducing, duplicating, copying, selling, trading, reselling, or exploiting any part of the images or derived data for any commercial use. Users are not authorized to further publish or distribute any part of this dataset.
- 2) *Commercial Use*: This dataset can be ONLY used for non-commercial research purposes. Specifically, the UW-Bench or its part may not be used to promote any product or technology. The right to terminate access to this dataset is solely reserved.
